

## OncoBioPharm at BioDundee.

Dundee, Scotland. 24-25th May 2016.

Members of OncoBioPharm's team this week attended the 16th Annual International BioDundee Conference, organised by the Scottish Life Sciences Community.

Held at Dundee's West Park Centre, the two-day conference featured a broad spectrum of speakers including eminent academics, physicians and pharmaceutical entrepreneurs.

OncoBioPharm's Operations Director, Dr Manuelle Debunne said "BioDundee is a great opportunity to network with our Life Sciences colleagues from Scotland and further afield. Events like this allow us to keep abreast of new developments and ideas in our field."

### About OncoBioPharm

OncoBioPharm Ltd is an Edinburgh-based biotechnology company developing therapeutic antibodies that target novel pathways associated with cancer cell growth and metastasis, with the aim of extending and improving the lives of people with cancer. The company's lead product, Tensinomab®, is a novel antibody which has been shown to block cancer cell growth, invasion and metastasis in a variety of tumour models.
