

## OncoBioPharm expands in Edinburgh.

Edinburgh, Scotland. 5th November 2015.

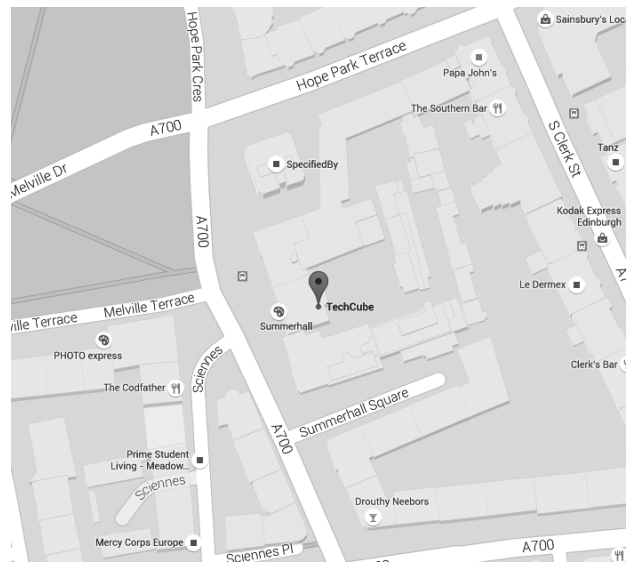

In preparation for what promises to be a busy and exciting year in 2016, OncoBioPharm has moved to new offices at Edinburgh's bustling TechCube.

Located next to Edinburgh University and the Meadows, TechCube has housed some of Scotland's most innovative technology companies. Previous occupants include FanDuel, one of only two "unicorns" (tech startups which reach a \$1-billion-dollar market value) in the country.

Chairman Chris Wood said: *'Bigger and better facilities are vital for OncoBioPharm as we build our team, and TechCube is ideal as a dynamic and creative environment for us as we accelerate development of our lead antibody, Tensinomab®'.*

### About OncoBioPharm

OncoBioPharm Ltd is a biotechnology company based in Scotland, developing therapeutic antibodies that target novel pathways associated with cancer cell growth and metastasis. These new targets provide OncoBioPharm with the potential to develop new powerful anti-cancer agents, with a focus on extending and improving the lives of people with cancer.
